Trustee Little reads a LJA article where Marengo states that LJCPA should not be handling code compliance.

**7.0 Non-Agenda Trustee Comment:**

Road is shared. Helen Boyden: Discusses bike lane on Gilman and gives audience member Cindy Lynch the names of City Engineers on the project. Trustees Weiss, Donovan and Little express concern over the Gilman project and ask that it return as an Action item vs. an Information item. Dan Courtney recommends that the City remove Parade signs earlier in La Jolla than they are currently removed. Patrick Ahern suggests that we try to mitigate Deco Bikes impact vs. fighting it whole.

Members of the public will not be recognized a second time until all members of the public have had a chance to ask questions. Then the matter will return to

Committee for deliberation and motion and discussion when appropriate.

### 3. NON-AGENDA PUBLIC COMMENT

**12/13/16: Costello:** Interested in moving the community groups' activities more into the digital age. A) 10 yr ago I suggested that the CPA, etc, have presentations by PowerPoint. But this stalled because we couldn't get funds for a projector, or decide whose computer to use. Time solved this as the Rec Center now has a projector, and all presenters have a computer. B) We should ask Elizabeth Maland to help us with digital transcription methods of minutes. C) If we can find a way to protect copyrighted documents, electronic submission of plans would help committees and reduce paper use.

**12/13/16: Kane:** Thanked Ms. Maria Duran, of the LJ Light, for her great article on the La Jolla Post Office.

**12/20/16: Kane:** Rutgers street vacation: The matter was pulled at LJCPA and will be heard at the January meeting. What can be done with steep hillside vacant land. Parks and Beaches aren't interested. Expensive to manage as park. Community Plan calls for seizing all opportunities to keep/increase public open space. There was a prime example of a hillside in Santiago, Chile by this years Pritsker prize winner. Please attend January CPA meeting if you have an opinion.

**12/20/16: Kane:** Condo conversion and discussion relating to last week's Eads project: The area is zoned for 3000 sf minimum lot. Ms Kane's research suggested it is "not permitted, but allowed". The community plan calls for medium density in this area which equates to approx. 2900sf lot. The municipal code requires condominiums to dedicate a percent of the lot area to be common open space. Additional steps required for "small lot subdivision". Costello suggested this item be continued as an agenda item and the next DPR meeting Jan 10.

**5. FINAL REVIEW 12/13/16**

Project Name:	745 Eads CDP/MW	Permits:	CDP & TM Waive 7435 & 7437 Eads Av
Project No.:	506361	DPM:	Glenn Gargas
Zone:	RS-1-7	Applicant:	Beth Reiter

(Process 3) Coastal Development Permit & Map Waiver for a condominium conversion of 2 units. This 0.16-acre site is located at 7435 & 7437 Eads Avenue, in the RM-1-1 zone of the La Jolla Community Plan area, in the PIOZ Coastal Impact and Coastal Height Limit Overlay Zone.

**APPLICANT PRESENTATION 11/15/16** (Beth Reiter, CE, Mark Scialvane)

A four-page handout of annotated photographs of the present day project site was distributed.

The units will undergo minor upgrading. The requirement for a CDP is because of the location. 3.25 parking spaces are required, 5 off-street parking spaces are planned. Bishops Lane, behind the property, will be repaved as per City instructions. On site utility wires will be undergrounded. Trash pick up is done from both the alley, Bishops Lane, and the street, Eads Avenue. The landscaped area of the lot is 25% and will remain at 25%.

**APPLICANT PRESENTATION 12/13/16** (Beth Reiter, CE, Mark Scialvane)

This is for a two-unit condo conversion, each to be sold separately. There are changes to the previously presented plans with approximately 8 ft addition to one of the units. Private and common areas are not established. There will be CC&Rs, but they aren't written yet. Because of the City density requirement the lot is too small for a lot split. FAR, .75 allowed, .50 proposed. Required by City to repave the alley.

**PROVIDED FOR FINAL REVIEW 12/13/16:** *Italics indicates applicant reply.*

- a) Please indicate the location for trash cans on the plans. *Done, storage will be off street and alley, not visible from street or alley.*
- b) Please provide distances, measurements on plans. *Staircase will be removed, now stairs will be interior.*
- c) Please update the landscaping plan, and use green color. *Done.* d)
- Show relocated fence, and additional landscaping. *Done.* e)
- Indicate measurements of the courtyard staircase and patio areas. *Removed from the plans.*
- f) Please provide plans for the upgraded arbor columns (or trellis columns). *Removed from the plans.*

**Committee discussion:** Committee member Kane commented that the proposal for a two-unit condominium was a de facto lot split, especially since there is limited common area (none was presented on the map provided and there was no indication of which private space areas were associated with each unit) and there were no CC & R's. Kane also noted that several condo maps have been recently presented to DPR for review in this neighborhood and expressed concern that the neighborhood zoning was being changed one project at a time and without community knowledge or discussion. Ms. Reiter confirmed that there have been similar comments associated with condo conversion proposals in North Park and Hillcrest. Kane asked that the CPA raise the issue of creeping neighborhood zone change associated with condo conversion maps with the City Planning and Development Services departments for study and resolution. Other comments included the inadequacy of the information regarding private and common areas, and CCR's which will be determinant of future use and development in conjunction with underlying zoning. Comentaries included that since the City does not have control of CCR's these should not be our concern. Issues of future improvements are a definite concern regarding scale and character.

**SUBCOMMITTEE MOTION 12/13/16:** Findings can be made for a Coastal Development Permit & Map Waiver for a condominium conversion of 2 units. At 7435 & 7437 Eads Avenue, in the RM-1-1 zone. ( Will / Collins 7-0-
