

Candidate Statement

Larry Davidson

I would like to submit this candidate statement for the position of LJCPA Trustee. I apologize in advance, but I will be unable to attend the LJCPA February 6 because of a previous family commitment in the Bay Area.

A little bit about me:

After 26 years, I have recently retired from a position as Sr. Vice President of a large Engineering/Construction firm with offices internationally and locally in San Diego. I am a registered Professional Engineer in California and other states. My formal training and expertise have been as an Environmental Engineer specializing in permitting, planning, and sustainability. I understand the mechanics of design and construction and the review processes. In addition, I have hands-on experience with local, state, and federal rules, regulations, and procedures. I would like to apply this background as an LJCPA Trustee.

My wife and I live happily in a small house in Windansea. Over the past six years, I gained firsthand knowledge regarding the La Jolla Community Plan, as first property on one side and now property on the other side of our home has undergone the development application process. I am familiar with the San Diego Municipal Code and the La Jolla Community Plan and Bylaws and have attended compliance-related meetings at DPR, LJCPA, and the City. I am particularly focused on environmental and quality-of-life issues facing our community such as NextGen Airport Noise, affordable housing, and sustainable development.

I am a fighter, a hard-worker, and analytical; I am committed to making La Jolla a better place for us, our children, and grandchildren. I would be honored to represent La Jolla as an LJCPA Trustee and request your support for my candidacy.

Thank you!
