

Brian Will

Candidate for La Jolla CPA Trustee

I was born and raised in La Jolla and this community will always be my home. A UC Berkeley graduate, I started my professional career as an Engineer working in Los Angeles, Orange County, and Tijuana. Now, a licensed architect, I have chosen to make La Jolla where I do business. I have previously served two terms as a CPA trustee and officer and I am currently the chairman of the Development Permit Review committee.

There are a number of challenges that face our community and not the least of which is navigating a complex and often self-contradicting municipal code. As such, I think it is critical that the CPA include one or more design/construction professionals amongst its trustees. Further, I believe we need to bring vitality back to the village and that we need to protect the charm of our seaside and single-family neighborhoods. We have to make walkability and livability a priority again. La Jolla is so much more than just a day-trip for San Diego tourists.
