

February 16, 2021

Neri Landscape Architecture  
928 Hornblend Street, Suite 3  
San Diego, California 92109

Attention: Mr. Jim Neri

Subject: Geological Review of Proposed Belvedere Reconstruction, Conceptual Plan Sheet, Kolmar Street Belvedere Reconstruction, La Jolla, California.

In accordance with your request, I have performed a geological review of the subject Conceptual Plan Sheet (provided to me on February 12, 2021) and have also performed a site visit including reconnaissance level mapping of geologic conditions. Based on the results of my review and geologic mapping, it is my professional opinion that the reconstruction of the Kolmar Street Belvedere Structure will not adversely impact the existing stability of the bluff.

If you have any questions regarding this letter, please do not hesitate to contact me directly at 619-957-8673. I appreciate this opportunity to be of service on this project.

Respectfully submitted,

Robert Stroh, CEG 2099  
Engineering Geologist
