

EMAIL TO FRIENDS OF WINDANSEA

February 13th, 2021

Dear Friends of Windansea,

We at Windansea Beach Preservation Association would like to collaborate with Friends of Windansea, we would like to find a neighborly solution for the pending **Windansea Beach Slope Protection and Belvedere Replacement Project**.

We are all Windansea community residents and advocate to protect its delicate ecosystem. We believe we have more in common than we have differences. We appreciate all that you have done for Windansea and would like to join your efforts in protecting our natural beach. **Imagine what we could accomplish for our community by working together.**

Although we cannot support the construction of the Belvedere, we can support your Beach Slope Protection project with enthusiasm. Let's find an alternate solution for the Belvedere replacement portion of the project together and more forward.

We totally understand the nostalgia for such a structure, especially when told through the lens of personal experiences. We would like to suggest we memorialize the Belvedere, in some fashion, at Windansea Beach so it is never forgotten and its story would live on forever.

If this is something you would like to discuss further please contact us.

Kindly

Suzanne Baracchini, Kate Woods, Jim Best
