4. Project Reviews (action items)

(none presented)

5. Non-Project Discussions & Reviews (action items as noted)

5.1. Parks Master Plan (Kane)

Update on Parks and Recreation Coalition presentation for CPC

Kane: The Parks Element of the Complete Communities Plan was returned to staff for more work. The Park and Recreation Coalition (PARC) whose members include former city planners, urban designers and community members from all parts of SD are addressing the issues in the Parks plan. I am honored to be part of this group. The last park plan was in 1956 and this one will need to last for a long time. Specific issues addressed by PARC are;

- Limited vision: less parkland for a growing city was provided.
- Limited resident participation after release of draft.
- Funding: Equity & Prioritization framework for citywide park fees needed.
- Untested new point system and park standards.
- Commercialization
- MSCP not considered.
- Design review and historic resources not included.
- Implementation

These points were explained in detail with suggestions for review.

Summary of improvements needed:

- Public Transparency: Involve Recreation Advisory Groups and Community Planning Groups
- Funding:
 - Bring forward funding, prioritization framework, and other implementing mechanisms (Council Policies) concurrently with PMP/RE.
 - What is correct DIF discount on the land component (in the Nexus study)?
 - Retain Recreation Element policy to do nexus study for non-residential park DIFs.
 - Apply Land Value Recapture in future upzones.
 - Require minimum payment into Citywide Park Fee for on-site developments.

- Standards:
 - Retain acreage standard.
 - Separate land metrics from amenity metrics.
 - Separate DIF usage from Community Planning usage.
- Control commercialization.

I propose the following motion: Support the improvements to the Master Parks Plan and Recreation Element recommended by PARC. Send a letter of support to the Mayor, City Council and Planning Staff. Recommend they work with Planning Groups and Recreational Advisory Groups for input.

Boyden: Point of order: This item is not listed as an action item.

Jackson: Legitimate point. It was put on as a discussion item. Didn't know motion would be included.

Kane: This requires immediate action

Neil: Could be done now. Need 2/3 vote and to establish necessity for timing; the item would suffer if not acted on before next public meeting.

Kane: Item needs to be on Community Planners Committee meeting on Jan. 26 and may go to City Council before end of Jan.

Motion: Make this item an action item on the agenda because of need to go to CPC meeting on Jan 26, and possibly to City Council in Jan. before our next scheduled meeting. (Costello/Weiss) Vote: 14-1-1. More than 2/3: Motion carries. *(Brady no response)*

In Favor: Ahern, Boyden, Costello, Davidson, Fitzgerald, Ish, Jackson, Mangano, Manno, Neil, Shannon, Steck, Weiss, Weissman.

Opposed: Courtney

Abstain: Kane (chair)

Motion: Support the improvements to the Master Parks Plan and Recreation Element recommended by PARC. Send a letter of support to the Mayor, City Council and Planning Staff. Recommend they work with Planning Groups and Recreational Advisory Groups for input. (Kane/Jackson)

Discussion about Land Value Recapture and sources of funding in suggestions by PARC, approval of letter, support of overall approach of suggestions, not approval of specific items. Kane will provide letter next meeting.

Vote: 13-3-1: Motion carries

In Favor: Boyden, Brady, Costello, Courtney, Davidson, Fitzgerald, Ish, Mangano, Manno, Shannon, Steck, Weiss, Weissman.

Opposed: Ahern, Jackson, Neil

Abstain: Kane

5.2. Complete Communities (Kane)

Update on changes and City Council actions

Kane: Reviewed Complete Communities Housing Solutions Plan passed by City Council. (see Materials & Comments), with the changes made and the effects of the plan in La Jolla.

- Problem in San Diego is too little moderate and low income housing available.

- State involvement indicated single family zoning caused the problems and offered legislation to make every SF Parcel into a duplex, three-plex or four-plex with tiny homes.
- Coastal zone was allowed 2.5 FAR, but nothing in LJ can meet that standard; we are studying how to achieve 2.5 FAR and maintain 30 ft. height limit.
- RM1-1 zone removed from Coastal zone which included 1/3 of LJ. Questions remain about whether Route 30 bus qualifies as High Quality Transit.
- Maps showing parcels removed from La Jolla on plan and those that are available for opt in development were reviewed.

6.3.2. Coastal View Corridors action item

Kane: Many coastal view corridors in the Community Plan and collected over private properties are being blocked by overgrown vegetation, fencing or development. Project updates:

- Theater District living and Learning Project now in construction commencement phase, parking lots closed. Project details reviewed. Approved by Regents in Nov. 2020.
- Erosion Control and Parking lot to reduce erosion and surface runoff on the site described.
- La Jolla Innovation Center Project located on a one-acre site at the southwest corner of Villa La Jolla Dr. and La Jolla Village Dr. where Rock Bottom Brewery was located - now closed. It is a UCSD real estate venture that proposes to construct a state of the art facility to house several UCSD programs – Health, School of Medicine, Academic Affairs and Extension. Currently in environmental phase, public scoping meeting was held on Dec.7. Draft EIR will be released soon with the 45 day review period. More information at plandesignbuild@ucsd.edu

Courtney: Size of project? **Reply:** 110,000 sq.ft., a 7 story building above ground plus 2 story underground parking.

Kane: Is the land being acquired by University? Are illustrations available? **Reply:** The one acre of land was acquired by University and will be University property, but it is not included in the Long Range Development Plan. It is within the Coastal Overlay Zone, but upon acquisition of the property, it will come under ownership of UC Regents and subject to UC Land Management Policy. There are no illustrations yet.

Kane: I ask you for a presentation at our next meeting with illustrations of the building, perspective drawings, traffic counts. The community is concerned. **Reply:** I will take this back to the Real Estate Department. I don't know the dates of the draft EIR availability for public review. For notification, please send your email address to commplan@ucsd.edu asking to be added to the environmental email list which is different from my community planning list.

A long discussion continued with comments about the proposed structure roughly 100 ft. high being three times the coastal height limit. Many concerned comments from Trustees that community has no control over University land use policies. Also comments to be considerate of Anu Delourj; she is only the messenger. Community members need to follow the Regents' meetings, comment on draft EIR, attend meetings and provide input and consider effects on the community. We also need to consider the State of California legislative policies that prioritize the role of higher education which gives the University this power over local land use ordinances.

8. Non-Agenda Trustee Comment
