I oppose building a gazebo at windansea I was raised there and I will not tolerate any buildings and it is necessary to keep the shack there it makes me angry to think that anyone would want to build anything there thank you for your support in this matter ~ **Rita Cory**

Dear Sir, some of the charming things about La Jolla are structures like the gazebo. With so many of the old homes in La Jolla being replaced with modern boxes, let's keep what we can. Please replace the gazebo with a replica.

Sincerely, **Nancy Brown**

I have lived at Windansea since 1972 and am opposed to a gazebo or any shelter being built off of Neptune. The police rarely patrol anymore and public parking in front of driveways and other illegal places is rampant. I called two weeks ago because 3 cars were parked in front of my driveway. The police never showed. The car owners showed up around 6pm. Traffic on the weekends is horrendous, often blocking all roads in to the beach. The noise from numerous boomboxes and car alarms is everywhere.

Last night someone was setting off firecrackers in the parking lot. I don't bother to call because it is a waste of time. Building a shelter will guarantee that more people will never go home. Some stay all night anyway. Drug deals in the parking lot are common. I think a shelter would be very handy for drug users. Have some compassion for those of us who live in this mess. Do not add to the problem. By the way, if you really want to do something for Windansea, get some law enforcement down here. The city could use the revenue.

Thank you, **Judy Joseph**, 203 Nautilus
