Hi,

I am a La Jolla resident and work in the Village. I love to come down to the beach at Windansea. It is my favorite beach in La Jolla. The thought of putting a gazebo there to me is awful. I don't think the residents down there would like it and what comes along with it (loitering, trash, partying, late night noise, etc.) and I am opposed to anything from the permit to the building of it. According to the plans, it's not even going to be put in the same area that it was before.

I also think that parking is already a challenge down there and it would become a nightmare not only for surfers and others that want to visit the beach, but also for the residents and people that want to visit them. Not only is it environmentally unfriendly, but also I don't see any handicap facilities. This is not a good idea.

There are many other gazebos in La Jolla that people can visit. Let's keep Windansea the way it is.

Thank you,

Diane Cumming
