Marie Biaggi 3817 Ray Street San Diego, CA 92104

Subject: 1026/1044 Wall Street CDP First Assessment Letter; Project No. 679452; Internal Order No. 24008770; La Jolla Community Plan

Dear Ms. Biaggi:

The Development Services Department has completed the first review of the project referenced above, and described as:

LA JOLLA. (Process 2) - Coastal Development Permit for a placemaking pedestrian plaza to replace an existing temporary pedestrian plaza. The project includes construction of a 1,278 square-foot deck that covers nine existing angled parking spaces in the public right-of-way at 1026 and 1044 Wall Street. The 0.63-acre site is in the La Jolla Planned District Zone 1 and Coastal (Non-Appealable Area 2) Overlay Zone within the La Jolla Community Plan area, and Council District 1.

Enclosed is a Cycle Issues Report (Enclosure 1) which contains review comments from staff representing various disciplines, outside agencies and the community planning group. The purpose of this assessment letter is to summarize the significant project issues and identify a course of action for the processing of your project.

If any additional requirements should arise during the subsequent review of your project, we will identify the issue and the reason for the additional requirement. To resolve any outstanding issues, please provide the information that is requested in the Cycle Issues Report. If you choose not to provide the requested additional information or make the requested revisions, processing may continue. However, the project may be recommended for denial if the remaining issues cannot be satisfactorily resolved and the appropriate findings for approval cannot be made.

The Development Services Department will generally formulate a formal recommendation for your project subsequent to completion of the following milestones: 1) After the City Council recognized Community Planning Group has provided a formal project recommendation; 2) After all City staff

Page 2 Marie Biaggi April 20, 2021

project-review comments have been adequately addressed; and 3) During the final stages of the environmental review process.

As your Development Project Manager, I will coordinate all correspondence, emails, phone calls, and meetings directly with the applicants assigned "Point of Contact." The addressee on this letter has been designated as the Point of Contact for your project. Please notify me if you should decide to change your Point of Contact while I am managing this project.

- I. **REQUIRED APPROVALS/FINDINGS:** Your project as currently proposed requires the processing of:
  - <u>Coastal Development Permit (CDP)</u> Staff decision, appealable to the Planning Commission
- II. SIGNIFICANT PROJECT ISSUES: The significant project issues are summarized below. Resolution of these issues could affect your project. Additional explanation is provided in the Cycle Issues Report.
  - **LDR-Planning:** Provide Coastal Development Permit findings, clarify how the project complies with the definition of Placemaking, clarify if the project expands to the adjacent business.
  - LDR- Environmental: Submitted a revised Climate Action Plan (CAP) Consistency Checklist.
  - Plan-Historic: Provide requested building records and photographs for 1026-1032 Wall Street.
  - **LDR-Engineering:** Submit the recorded permit for the existing sidewalk patio and the previous Placemaking permit.
  - **LDR-Transportation:** Demonstrate that the project satisfies the procedures described in SDMC Section 86.0104(d)(2 & 3) for removal of angle parking.

### III. STUDIES/REPORTS REQUIRED: None

**IV. PROJECT ACCOUNT STATUS:** Our current accounting system does not provide for real-time information regarding account status, however, our records show approximately \$4,122.49 remaining in your deposit account at this time.

During the processing of your project, you will continue to receive statements with the break-down of staff charges to your account. Should you have questions about those charges, please feel free to contact me directly.

V. **TIMELINE:** Upon your review of the attached Cycle Issues Report, you may wish to schedule a meeting with staff and your consultants prior to resubmitting the project. Please

telephone me if you wish to schedule a meeting with staff. During the meeting, we will also focus on key milestones that must be met in order to facilitate the review of your proposal and to project a potential timeline for a hearing date. Your next review cycle should take approximately 20 days to complete.

Municipal Code Section 126.0114 requires that a development permit application be closed if the applicant fails to submit or resubmit requested materials, information, fees, or deposits within 90 calendar days. Once closed, the application, plans and other data submitted for review may be returned to the applicant or destroyed. To reapply, the applicant shall be required to submit a new development permit application with required submittal materials, and shall be subject to all applicable fees and regulations in effect on the date the new application is deemed complete.

If you wish to continue processing this project, please note that delays in resubmitting projects and/or responding to City staff's inquiries negatively impact this Department's ability to effectively manage workload, which can lead to both higher processing costs and longer timelines for your project.

- VI. **RESUBMITTALS/NEXT STEPS:** Please go to the Development Services Department website for the Latest News on Resubmittals <u>https://www.sandiego.gov/development-services</u>. Please be prepared to provide the following:
  - A. <u>Plans</u>: Submit electronically in Open DSD

B. <u>Response to Cycle Issues Report</u>: Prepare a cover letter that specifically describes how you have addressed each of the issues identified in the Cycle Issues Report and any issues identified in this cover letter, if applicable. Or, you may choose to simply submit the Cycle Issues Report, identifying within the margins how you have addressed the issue. If the issue is addressed on one or more sheets of the plans or the reports, please reference the plan, sheet number, report or page number as appropriate. If it is not feasible to address a particular issue, please indicate the reason.

VII. COMMUNITY PLANNING GROUP: Staff provides the decision maker with the recommendation from your locally recognized community planning group. If you have not already done so, please contact Diane Kane, the chairperson of the La Jolla community Group at (858) 459-9490 or via email at <u>dkane002@san.rr.com</u> to schedule your project for a recommendation from the group. If you have already obtained a recommendation from the group, in your resubmittal, if applicable, please indicate how your project incorporates any input suggested to you by the community planning group.

Information Bulletin 620, "Coordination of Project Management with Community Planning Committees" (available at <u>http://www.sandiego.gov/development-services</u>), provides some valuable information about the advisory role the Community Planning Group. Council Policy 600-24 provides standard operating procedures and responsibilities of recognized Community Planning Committees and is available at <u>http://www.sandiego.gov/city-clerk/officialdocs/index.shtml</u>.

Page 4 Marie Biaggi April 20, 2021

- VIII. **STAFF REVIEW TEAM:** Should you require clarification about specific comments from the staff reviewing team, please contact me, or feel free to contact the reviewer directly. The names and telephone numbers of each reviewer can be found on the enclosed Cycle Issues Report.
- IX. PROJECT ISSUE RESOLUTION CONFERENCE: Project Issue Resolution (PIR) conferences provide customers an opportunity to have issues heard and considered by executive department management. A PIR will be considered if, after the issuance of the third Assessment Letter for discretionary projects, customers and staff have been unable to resolve project issues. The PIR would address issues such as disagreements between the applicant and staff on interpretations of codes or ordinances, requests for additional information or studies, or project-related processing requirements. Any determinations from a PIR are not binding on any City decision-making body, such as City Council, Planning Commission, or Hearing Officer. Qualifying PIR requests should be coordinated with your Development Project Manager.

In conclusion, please note that information forms and bulletins, project submittal requirements, and the Land Development Code may be accessed on line at <u>http://www.sandiego.gov/development-services</u>. Many land use plans for the various communities throughout the City of San Diego are now available on line at <u>http://www.sandiego.gov/planning/community/profiles/index.shtml</u>.

**Open DSD:** To view project details online, visit: <u>http://www.sandiego.gov/development-services/opendsd/</u>.

For modifications to the project scope, submittal requirements or questions regarding any of the above, please contact me prior to resubmittal. I may be reached by telephone at (619) 446-5117 or via e-mail at EGutierrez@sandiego.gov.

Sincerely,

LIB &

Edith Gutierrez for Xavier Del Valle Development Project Manager

. Your project still has 3 outstanding review issues with Community Planning Group (all of which are new).

. Last month Community Planning Group performed 51 reviews, 23.5% were on-time, and 41.2% were on projects at less than < 3 complete submittals.

#### First Cycle Issues lssue Cleared? Num Issue Text The proposed project is located within the La Jolla Community Planning Area. The La Jolla Community Planning 1 Association is the officially recognized community group for the area to provide recommendations to the City. (New Issue) 2 If you have not already done so, please contact Diane Kane, Chair of the La Jolla Community Planning Association at (858) 459-9490 or by email at info@lajollacpa.org to schedule your project for a presentation before the group at their next available meeting. If you have already obtained a recommendation from the group, please submit a copy of the recommendation and/or minutes from the meeting which includes the vote count to Development Project Manager. (New Issue) 3 Development Services Department (DSD) Information Bulletin #620, "Coordination of Project Management with Community Planning Committees" (available at https://www.sandiego.gov/development-services), provides additional information about the advisory role of the Community Planning Groups. Council Policy 600-24 provides guidance to the Community Planning Groups and is available at https://docs.sandiego.gov/councilpolicies/cpd 600-24.pdf (New Issue)

For questions regarding the 'Community Planning Group' review, please call Xavier Del Valle at (619) 557-7941. Project Nbr: 679452 / Cycle: 2

. The reviewer has requested more documents be submitted.

. Your project still has 7 outstanding review issues with Plan-Historic (all of which are new).

. Last month Plan-Historic performed 380 reviews, 86.8% were on-time, and 90.2% were on projects at less than < 3 complete submittals.

#### **b** 03.04.2021 1044 Wall St <u>Issue</u> Cleared? Num Issue Text × The property located at 7902-7920 Herschel Ave and 1024-1044 Wall St was previously reviewed on 02/03/2017 in accordance with SDMC Section 143.0212 under PTS 520333. During that review, the property was determined eligible for designation under any HRB criteria. That determination is good for 5 years from the 02/03/2017 review date unless new information is provided that speaks to the building's eligibility for designation. No new information has been provided and the property is not subject to Historic review at this time. (New Issue) b 1026 Wall St Issue Cleared? Num Issue Text 2 п The property located at 1026-1032 Wall St is not an individually designated resource and is not located within a designated historic district. However, San Diego Municipal Code Section 143.0212 requires City staff to review all projects impacting a parcel that contains a structure 45 years old or older to determine whether a potentially significant historical resource exists on site prior to issuance of a permit. (Info Only, No Response Required) (New Issue) 3 × During this review buildings are evaluated for eligibility under local designation criteria. The designation criteria and guidelines for their application can be found on the City's website: http://www.sandiego.gov/planning/programs/historical/pdf/201102criteriaguidelines.pdf (Informational Only; No Response or Action Required) (New Issue) 4 × More information regarding this review process can be found in Information Bulletin 580: http://www.sandiego.gov/development-services/pdf/industry/infobulletin/ib580.pdf (Informational Only; No Response or Action Required) (New Issue) 5 × If City staff determines after review of these documents that no potentially significant historical resource exists on site, the parcel will be exempt from further historical review for five years from this date unless new information is provided that speaks to the building's eligibility for designation. (Informational Only; No Response or Action Required) (New Issue) × 6 If City staff determines that a potentially significant historical resource exists on the site, all modifications and additions will be evaluated to determine consistency with the Secretary of the Interior's Standards for Treatment of Historic Properties (Standards). If the proposed project is consistent with the Standards, the permit process may proceed and the parcel will require additional review for all future modifications. (continued...) (New Issue) 7 × (...continued) If the proposed project is not consistent with the Standards, the applicant may redesign the project or prepare a historic report that evaluates the building's integrity and eligibility under all designation criteria. (Informational Only; No Response or Action Required) (New Issue) or questions regarding the 'Plan-Historic' review, please call Megan Bacik at (619) 655-6301. Project Nbr: 679452 / Cycle: 2

The review due date was changed to 04/05/2021 from 04/05/2021 per agreement with customer.

The reviewer has indicated they want to review this project again. Reason chosen by the reviewer: First Review Issues.

. We request a 2nd complete submittal for PUD-Water & Sewer Dev on this project as: Submitted (Multi-Discipline).

. The reviewer has requested more documents be submitted.

. Your project still has 8 outstanding review issues with PUD-Water & Sewer Dev (all of which are new).

. Last month PUD-Water & Sewer Dev performed 252 reviews, 86.9% were on-time, and 61.0% were on projects at less than < 3 complete submittals.

#### Issue Cleared? Num Issue Text × 1 Water and sewer capacity charges will be due at the time of building permit issuance. Capacity charges, as well as service and meter size, are determined by the Water Meter Data Card which is completed during the building plan review process. Any questions regarding water and sewer capacity fees should be addressed to Information and Application Services (619-446-5000). (New Issue) [Recommended] If it is determined that the existing water and sewer services are not of adequate size to serve the proposed × project, the applicant will be required to abandon (kill) any existing unused water and sewer services and install new service(s) and meter which must be located outside of any driveway or vehicular use area. (New Issue) [Recommended] All water services to the site, including domestic, irrigation and fire, will require private, above ground back flow 3 × prevention devices (BFPDs). BFPDs are typically located on private property, in line with the service and immediately adjacent to the right-of-way. The Public Utilities Department will not permit the required BFPDs to be located below grade or within the structure. (New Issue) [Recommended] All onsite water and sewer facilities will be private and shall be designed to meet the requirements of the × 4 California Uniform Plumbing Code and shall be reviewed as part of the building permit plan check. (New Issue) [Recommended] No trees or shrubs exceeding three feet in height at maturity shall be installed within ten feet of any water and 5 × sewer facilities. (New Issue) [Recommended] 6 If you have any questions regarding water and sewer comments, please call Associate Engineer Irina Itkin at × (619) 446-5422, or send E-mail at Iltkin@sandiego.gov (New Issue) [Recommended] Ist review: Issue Cleared? Num Issue Text These comments are draft and subject to change until presented by the City's assigned Development Project Manager in conjunction with the project Assessment Letter. Staff is unable to process formal, intermediate plan changes and updates outside the full submitted cycle. A formal response to these comments must be made through the resubmittal process in response to the full Assessment Letter. Your DSD Development Project Manager can assist with further questions (New Issue) On site plan, sheet 6, show and label all existing sewer and water utilities, include size, material and reference 8 drawing. (New Issue) 9 Show all existing water appurtenances. Labels should indicate the service size, whether existing or proposed, and the type of service (Domestic, Irrigation, or Fire). For the existing water services, please indicate whether the service is to be remained or to be killed at the main. (New Issue) 10 If the existing water service need to be killed, show the proposed water services from the existing water main to the point of connection to the subject property. (New Issue) 11 Show the water meter and location of the backflow preventer. (New Issue) 12 Show all existing sewer laterals. Indicate that unused sewer laterals should be plug at property line (if applicable). (New Issue) 13 Show the proposed sewer laterals from the subject property to the point of connection to the existing sewer main. (New Issue)

14 FYI, the permanent structure is not allowed on top of the water services or sewer laterals. (New Issue)
