

## **Candidate Statement**

**Larry Davidson**

I would like to submit this candidate statement for your consideration for the position of La Jolla Community Planning Association (CPA) Trustee.

A little bit about me:

I have just completed two years as a CPA trustee and currently hold the position of Treasurer. I am also a designated member of the PRC from the CPA. After 26 years, I retired from a position as Sr. Vice President of a large Engineering/Construction firm with offices internationally and locally in San Diego. I am a registered Professional Engineer in California, Massachusetts, and Illinois. My formal training and expertise have been as an Environmental Engineer specializing in permitting, planning, and sustainability. I understand the mechanics of design and construction and the review processes. In addition, I have hands-on experience with local, state, and federal rules, regulations, and procedures. I would like to continue to apply this background as a CPA Trustee.

My wife and I live happily in a small house in Windansea. Over the past eight years, I gained firsthand knowledge regarding the workings of the San Diego Development Services Department (DSD) as they apply to La Jolla. The property on one side and later the property on the other side of our home underwent the DSD application, design, and construction processes - one after the other. I am familiar with the San Diego Municipal Code and the La Jolla Community Plan and Bylaws and have attended development-related meetings at DPR, PRC, CPA, and the City. I am particularly focused on environmental and quality-of-life issues facing our community such as affordable housing and sustainable development.

I am analytical, a fighter, and a hard-worker; I am committed to making La Jolla a better place for us, our children, and grandchildren. I would be honored to continue to represent La Jolla as a CPA Trustee and request your support for my candidacy.

Thank you!
