

As Principal of Island Architects with 27 years of experience in La Jolla and a deep passion for architecture design, I am eager to contribute my skills, knowledge, and commitment to serving a second term on the La Jolla Community Planning Association.

I believe that architecture has the power to shape communities, improve quality of life, and promote social cohesion. My experience has equipped me with a keen eye for detail and a comprehensive understanding of architectural principles and best practices. I am skilled at evaluating design proposals, assessing their compatibility with existing community fabric, and providing constructive feedback to ensure that projects meet the highest standards.

Beyond my technical expertise, I am deeply committed to serving the needs and aspirations of the community of La Jolla. I understand the importance of engaging stakeholders, listening to their concerns, and advocating for designs that reflect their values and follow regulations. I am a collaborative team player who thrives in environments that foster creativity, innovation, and inclusive decision-making.

If selected to serve a second term, I pledge to bring dedication, professionalism, and integrity to every aspect of my role. I am excited about the opportunity to contribute to the continued growth and development of our community.
